

Speaker Bio

Dr. Tzu-Hsien Yang is currently an assistant professor at the Department of Biomedical Engineering, National Cheng Kung University, Taiwan. He received the BS and PhD degrees in electrical engineering from National Cheng Kung University, Taiwan, in 2010 and 2014, respectively. His research interests include computational systems biology, bioinformatics, and deep learning. Currently, he has published several research results on Systems and Computational Biology and Bioinformatics, in which researchers develop algorithms and tools based on electrical engineering or computer science techniques to integrate different genome-wide high-throughput
