

Speaker Bio

Steven Wu is an Assistant Professor in the Department of Agronomy at National Taiwan University (NTU). His primary research interests are developing statistical and computational models to address challenges in agriculture, metagenomics, and evolutionary biology. He was the head of bioinformatics at an agriculture startup company, BioConsortia Inc., in California, USA. Prior to that role, he was a postdoctoral associate at Arizona State University and Duke University, USA, after obtaining a PhD at the University of Auckland, New Zealand. With unique experiences in both academics and the industry world, the goal is to blend the best of both worlds.
