備註：Online live streaming through Google Meet will be available.

Abstract

With the rise of Generative AI and large language models (LLMs), the impact of AI has surged to unprecedented levels—transforming society, industry, education, healthcare, government, and nearly every facet of daily life. This talk will draw on over two decades of hands-on experience in Asia and more recent work in the U.S., offering key insights and future outlooks for AI researchers and aspiring entrepreneurs, particularly those interested in launching ventures in Asia.
